RIZAL COMMERCIAL BANKING CORPORATION AND SUBSIDIARIES
NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2023 AND DECEMBER 31, 2022
(Amounts in Millions of Philippine Pesos, Except Otherwise Indicated)

1. CORPORATE MATTERS

1.1 Incorporation and Operations

Rizal Commercial Banking Corporation (the Parent Company, the Bank or RCBC), a universal bank engaged in all aspects of banking, was originally incorporated on September 23, 1960. The Bank renewed its corporate existence on December 10, 2009. It provides products and services related to traditional loans and deposits, trade finance, domestic and foreign fund transfers or remittance, cash management, treasury, and trust and custodianship services. It also enters into forward currency contracts as an accommodation to its clients and as a means of managing its foreign exchange exposures. The Parent Company and its subsidiaries (together hereinafter referred to as the Group) are engaged in all aspects of traditional banking, investment banking, retail financing (credit cards, auto loans, mortgage/housing and microfinance loans), remittance, leasing and stock brokering.

As a banking institution, the Group's operations are regulated and supervised by the Bangko Sentral ng Pilipinas (BSP). As such, the Group is required to comply with banking rules and regulations such as those relating to maintenance of reserve requirements on deposit liabilities and deposit substitutes and those relating to the adoption and use of safe and sound banking practices, among others, as promulgated by the BSP. The Group's activities are subject to the provisions of Republic Act (RA) No. 8791, the *General Banking Law of 2000*, and other related banking laws.

The Parent Company's common shares are listed in the Philippine Stock Exchange (PSE).

RCBC is a 39.64%-owned subsidiary of Pan Malayan Management and Investment Corporation (PMMIC or Ultimate Parent), a company incorporated and domiciled in the Philippines. PMMIC is the holding company of the flagship institutions of the Yuchengco Group of Companies (YGC), with registered business address at 48th Floor, Yuchengco Tower, RCBC Plaza, 6819 Ayala Avenue cor. Sen. Gil Puyat Avenue, Makati City. As of June 30, 2023 and December 31, 2022, Cathay Life Insurance Corporation (Cathay) also owns 22.19% interest in RCBC.

The condensed consolidated interim financial statements of the Group as of and for the six months ended June 30, 2023 (including the comparatives for the six months ended June 30, 2022) and the year ended December 31, 2022 were presented to and reviewed by the Bank's Audit and Compliance Committee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized in the succeeding pages. The policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 Basis of Preparation of Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The interim financial statements of the Bank have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

There were no changes in the accounting policies and methods of computation followed in the interim financial statements as compared with the most recent annual financial statements.

(b) Presentation of Financial Statements

The financial statements are presented in accordance with Philippine Accounting Standards (PAS) 1, *Presentation of Financial Statements*. The Group presents its statement of financial position broadly in order of liquidity and presents all items of income and expenses in two statements: a “statement of profit or loss” and a “statement of comprehensive income.”

(c) Functional and Presentation Currency

These financial statements are presented in Philippine pesos, the Group’s functional and presentation currency. All amounts are in millions, except per share data or when otherwise indicated.

2.2 Basis of Consolidation and Accounting for Investments in Subsidiaries and Associates in the Separate Financial Statements

The Group’s consolidated financial statements comprise the accounts of the Parent Company and its subsidiaries, after the elimination of material intercompany transactions. All intercompany resources and liabilities, equity, income, expenses and cash flows relating to transactions with subsidiaries are eliminated in full. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

2.3 Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual terms of the financial instrument. For purposes of classifying financial assets, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria under PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

(a) Classification, Measurement and Reclassification of Financial Assets

Under PFRS 9, *Financial Instruments*, the classification and measurement of financial assets is driven by the entity’s business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The classification and measurement of financial assets are described in the succeeding paragraphs.

(i) *Financial Assets at Amortized Cost*

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows; and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method, less any impairment in value.

(ii) *Financial Assets at Fair Value Through Profit or Loss (FVPL)*

The Group classifies financial assets as FVPL when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking.

Debt instruments that do not meet the amortized cost criteria, or that meet the criteria but the Group has chosen to designate as at FVPL at initial recognition, are measured at FVPL. Equity investments are classified as financial assets at FVPL, unless the Group designates an equity investment that is not held for trading as at *Financial Assets at Fair Value Through Other Comprehensive Income* (FVOCI) at initial recognition. The Group's financial assets at FVPL include government securities, corporate bonds, equity securities, which are held for trading purposes or designated as at FVPL.

Financial assets at FVPL are initially measured at fair value and transaction costs are expensed in profit or loss. Unrealized gains and losses arising from changes (mark-to-market) in the fair value of the financial assets at FVPL category and realized gains or losses arising from disposals of these instruments are included in Trading and Securities Gains under Other Operating Income account in the statement of profit or loss.

(iii) *Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI)*

Debt Instruments at FVOCI

The Group classifies debt instruments under FVOCI when both of the following conditions are met:

- the asset is held within the Group's business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

FVOCI debt securities are initially measured at fair value plus transaction costs. They are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in Other Comprehensive Income (OCI). Interest Income and foreign exchange gains and losses are recognized in profit or loss in the same manner as for financial assets measured at amortized cost.

On derecognition, cumulative gains or losses previously recognized in OCI are reclassified to profit or loss.

Equity Instruments at FVOCI

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Group for trading. The Group has designated certain equity instruments as at FVOCI on initial application of PFRS 9.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value, including the foreign exchange component, are recognized in other comprehensive income, net of any effects arising from income taxes, and are reported as part of Revaluation Reserves account in equity. When the asset is disposed of, the cumulative gain or loss previously recognized in the Revaluation Reserves account is not reclassified to profit or loss, but is reclassified directly to Surplus account.

(b) Impairment of Financial Assets

PFRS 9 requires the Bank to record an allowance for Expected Credit Losses (ECL) for all loans and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts. The allowance is based on the ECLs associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination. If the financial asset meets the definition of purchased or originated credit impaired, the allowance is based on the change in the ECLs over the life of the asset.

The Group has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

The Group ECL model follows a three-stage impairment approach in determining the loss allowance to be recognized in the financial statements:

- (i)* Stage 1 – comprises of all credit exposures that are considered 'performing' and with no observed significant increase in credit risk (SICR) since initial recognition. These include those financial instruments with low credit risk. For these financial instruments, the loss allowance is determined based on a 12-month ECL.

- (ii) Stage 2 – comprises of all financial instruments assessed to have SICR since initial recognition based on the Group's quantitative and qualitative criteria, though not yet deemed to be credit-impaired. Using the Group's ICRRS, Stage 2 includes credit exposures that are considered 'under-performing' in which risk ratings were downgraded by at least three notches and/or downgraded to CCC+ to Especially Mentioned. Stage 2 financial instruments may also include those facilities where the credit risk has improved and have been reclassified from Stage 3 subject to the Group's observation period on the creditworthiness of the counterparty. A lifetime ECL is recognized for these financial instruments.
- (iii) Stage 3 – comprises credit exposures which are assessed as 'credit-impaired', thus considered by the Group as 'non-performing', which is assessed consistently with the Group's definition of default. Generally, this includes accounts classified as Substandard, Doubtful and Loss. The Group recognizes a lifetime ECL for all credit-impaired financial assets.

The key elements used in the calculation of ECL are as follows:

Probability of Default – is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognized and is still in the portfolio.

Loss Given Default – is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Bank would expect to receive, including the realization of any collateral.

Exposure At Default – represents the gross carrying amount of the financial instruments subject to the impairment calculation.

b.1 Impact of COVID-19 on Measurement of ECL

In response to the COVID-19 situation and the Group's expectations of economic impacts, the key conditions and assumptions utilized in the Group's calculation of ECL have been revisited and recalibrated. The Bank considers economic scenarios and forward-looking macroeconomic assumptions underpinning the ECL calculation. The expected impacts of COVID-19 have been reasonably captured using the Group's business-as-usual (BAU) ECL methodology.

In 2022, the Bank revised its BAU ECL methodology to incorporate impacts of COVID-19 under its new normal assessments eliminating the need for separate post model adjustments. Notwithstanding that the measurement inputs and assumptions, including forward-looking macroeconomic assumptions were recalibrated in response to the COVID-19 situation, the fundamental ECL mechanics and methodology underpinning the Group's measurement of ECL have remained consistent with the prior periods.

In identifying the impact of COVID-19 pandemic to the Group's customers, the Group re-segmented its loan portfolio based on the perceived and expected COVID-19 impact to the customers' businesses and industries which also considers additional qualitative characteristics that would elevate COVID-19 changes to SICR such as differentiation of temporary liquidity need from permanently impacted or SICR.

Supporting the re-segmentation is the COVID-19 Assistance and Recovery Enhancement (CARE) Program, primarily designed to: (1) extend financial assistance to customers by way of extended repayment plans given cash flow tightness and (2) immediately get the customer back into the habit of paying based on amounts they can afford. In accordance with regulatory guidance, the Group also implemented mandatory payment holidays to all eligible loans.

The following are the considerations in measuring ECL under the COVID-19 situation:

(a) SICR

The offer or uptake of COVID-19 related repayment deferrals, whether coming from government reliefs or from the Group's CARE Program, does not itself constitute an SICR event unless the exposure is considered to have experienced an SICR based on other available information. SICR has been reassessed with reference to the Group's CARE Program credit risk rating which considers industry or segment assessment under the COVID-19 situation, financial performance indicators, historical credit information of the borrower and other modifiers. The Group's reassessment is to determine if changes in the customers' circumstances were sufficient to constitute SICR.

(b) Derecognition of Financial Assets

A financial asset (or where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

(c) Modification of Loans

When the Group derecognizes a financial asset through renegotiation or modification of the contractual payment terms of the loans due to significant credit distress of the borrower, the Group assesses whether or not the new terms are substantially different to the original terms of the instrument.

In making such assessment, the Group considers, among others:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay;
- Whether any substantial new terms are introduced that will affect the risk profile of the loan;
- Significant extension of the loan term when the borrower is not in financial difficulty;
- Significant change in the interest rate;
- Change in the currency the loan is denominated in; and/or,
- Insertion of collateral, other security or credit enhancements that will significantly affect the credit risk associated with the loan.

2.4 Financial Liabilities

Financial liabilities which include deposit liabilities, bills payable, bonds payable, accrued interest and other expenses, and other liabilities (except tax-related payables, post-employment defined benefit obligation and deferred income) are recognized when the Group becomes a party to the contractual terms of the instrument.

Financial liabilities are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method, for those with maturities beyond one year, less settlement payments. All interest-related charges incurred on financial liabilities are recognized as an expense in the statement of profit or loss under the caption Interest Expense.

2.5 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events (e.g., legal dispute or onerous contracts).

2.6 Revenue and Expense Recognition

Revenue is recognized to the extent that the revenue can be reliably measured; it is probable that the economic benefits will flow to the Group; and the costs incurred or to be incurred can be measured reliably.

2.7 Impairment of Non-financial Assets

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows [cash-generating units (CGU)]. As a result, some assets are tested for impairment either individually or at the CGU level.

Impairment loss is recognized in profit or loss for the amount by which the asset's or CGU's carrying amount exceeds its recoverable amount which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each CGU and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors are determined individually for each CGU and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

All assets, except for intangible assets with indefinite useful life and goodwill, are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or CGU's recoverable amount exceeds its carrying amount.

2.8 *Income Taxes*

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, tax authorities relating to the current or prior reporting period, that are unpaid at the end of the reporting period. They are calculated according to the tax rates and tax laws applicable to the periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statement of profit or loss.

Deferred tax is provided using the liability method, on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax assets can be utilized. Deferred tax assets are reassessed at the end of each reporting period. Previously unrecognized deferred tax assets are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

2.9 *Related Party Relationships and Transactions*

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless of whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group and close members of the family of any such individual; and, (d) the funded retirement plan of each of the entities under the Group.

2.10 *Events After the End of the Reporting Period*

Any event that provides additional information about the Group's financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post-reporting events that are not adjusting events, if any, are disclosed when material to the financial statements.

10.1 Treasury Shares

In 2019, subsequent to the effective date of the merger, the Parent Company acquired the 315,287,248 common shares issued in exchange of the net assets of RSB equal to the Parent Company's investment in RSB as at December 31, 2018.

On July 23, 2021, the Parent Company sold 101,850,000 shares to Sumitomo Mitsui Banking Corporation (SMBC) at P44.00 per share. This came from the treasury shares resulting from the merger of Parent Company and RSB. The sale of shares held by the Parent Company in treasury is equivalent to 4.999% of the total outstanding Common Stock. The issuance resulted in a recognition of additional Capital Paid in Excess of Par amounting to P50. The Parent Company incurred expenses related to the issuance amounting to P113 which was charged to equity resulting in a P63 net decrease in the Capital Paid in Excess of Par.

10.2 Hybrid Perpetual Securities

On August 27, 2020, the Parent Company issued US\$300 non-cumulative, unsecured, subordinated capital securities which qualify as AT1 capital under Basel III standards. As of June 30, 2023, the hybrid perpetual securities amounted to P14,463, net of issuance costs.

The capital securities are perpetual in respect of which there is no fixed redemption date. The Parent Company may redeem the capital securities only in certain circumstances as described in the conditions of the securities and with prior written consent of BSP. Distributions are non-cumulative and payable semi-annually in arrear at a rate of 6.5%. Certain conditions provide for circumstances under which the Parent Company will not be obliged to pay any distribution on the applicable payment date.

The proceeds of the hybrid perpetual securities are used to support and finance medium-term to long-term asset growth, loans to customers, other general corporate purposes and to maintain sufficient buffers above the minimum capital thresholds required by BSP.

12. COMMITMENTS AND CONTINGENCIES

In the normal course of operations of the Group, there are various outstanding commitments and contingent liabilities such as guarantees, commitments to extend credit, tax assessments, etc., with amounts not reflected in the financial statements. Management does not anticipate losses from these transactions that will adversely affect the Group's operations.

In the opinion of management, the suits and claims arising from the normal course of operations of the Group that remain unsettled, if decided adversely, will not involve sums that would have material effect on the Group's financial position or operating results.

12.1 *Contingent Accounts, Guarantees and Other Commitments*

13. OTHER MATTERS

13.1 *Continuing Impact of COVID-19*

In December 2019, COVID-19 was reported to have surfaced in China. The World Health Organization has declared the outbreak as a public health emergency of international concern. COVID-19 started to become widespread in the Philippines in early March 2020 causing the government to declare the country in a state of public health emergency followed by implementation of ECQ and social distancing measures and restrictions within the Luzon area with other cities and provinces in the country enacting similar measures thereafter. This resulted in a wide-ranging business suspension – disrupting the supply chains, affecting production and sales across a range of industries, and weakening the stock market.

Since 2021, an increase in volume of transactions is evident to the Group which was mainly due to customer acquisition driven by data science and digital marketing. While economic recovery is expected, the Group will stay focused on keeping efficient operations as it embarks on transformation projects such as: (i) fully automated KYC process and (ii) enhanced credit and control systems. These activities include various business process reengineering exercises such as process reviews and digital enhancements that support efficiency, lower cost of transaction and reduced costs in product delivery.

The Group expects continued improvements in the general business environment and the economy to sustain its upward trend as all health restrictions have been fully lifted in the middle part of 2023.

13.2 Impact of Russia – Ukraine Conflict

The ongoing Russia-Ukraine war since February 24, 2022 led to higher global crude oil and other commodity prices in 2022 which partly bloated the Philippines' imports and trade deficit to record levels. This resulted in elevated inflation worldwide which triggered aggressive Federal rate hikes that supported a strong U.S. dollar earlier in 2022.

This event prompted BSP to implement local policy rate hikes totaling 350 basis points in 2022, 50 bps in February 2023 and another 25 bps this March 2023 to temper the high domestic inflation and be in sync with US Federal hikes to help manage the peso exchange rate.

The increase in BSP policy rates resulted in higher cost of deposits. It has also led to unrealized mark-to-market losses in FVOCI portfolio which fluctuates according to market condition; unless sold, these losses are recorded as part of the other comprehensive income or loss under Statement of comprehensive income.

The Group has implemented strategies to mitigate the increase in cost by issuances of loans with higher rates and growing low-cost deposits.

13.3 Increase in shareholding of SMBC

On November 2, 2022, the Bank's BOD approved the increase in shareholding of SMBC, an existing shareholder of 4.99% of the total outstanding common stock of the Bank, to 20% through the combined sale of subscription of an aggregate of 382 common stock to SMBC, partly coming from the reissuance of treasury shares and issuance of new common stock, at the price of P71 per share. The additional capital infusion was made on July 31, 2023.

13.4 Sale of Niyog Property Holdings, Inc. (NPHI) and Cajel Realty Corporation (CRC) shares to Filinvest Land, Inc. (FLI)

On March 27, 2023, the Bank's Board of Directors approved the proposed sale and transfer to FLI of its shares in NPHI and CRC, wholly-owned subsidiaries of the Bank, subject to completion of FLI's due diligence and compliance with conditions to be agreed by the parties. NPHI and CRC, as owners of certain parcels of land located in Bacoar, Cavite have joint development agreements with FLI, wherein FLI undertook to develop the land properties into an exclusive residential subdivision, now known as Princeton Heights.

On July 14, 2023, The Bank and FLI executed a Deed of Absolute Sale for the sale and transfer of the Bank's 100% ownership in NPHI and CRC to FLI. Total consideration for the shares amounted to P544.4 million for NPHI and P88.8 million for CRC.

* June 30, 2023 and 2022 ratios/ amounts were annualized

1/ Average assets for the consolidated and parent ratios were computed based on the 6-month average of end of month balances of total assets. Unaudited net income for the 6-month period ended June 30, 2023 in the amount of P6.2 billion represented the consolidated and parent.

2/ Average equity for the consolidated and parent ratios were, likewise, computed based on the 6-month average of end of month balances. Unaudited net income for the 6-month period ended June 30, 2023 in the amount of P5.7 billion represented the consolidated and parent, net of dividends on Hybrid Perpetual Securities of P532.7 million.

3/ NPL ratio is determined by using the following formula: $(Total\ NPLs\ net\ of\ total\ specific\ provision\ for\ losses\ of\ NPLs) / (Total\ gross\ loan\ portfolio)$.

4/ NPA ratio is determined by using the following formula: $[Net\ NPLs + Gross\ Real\ and\ Other\ Properties\ Acquired\ (ROPA) + Non-performing\ Sales\ Contract\ Receivable\ (SCR) + Non-Current\ Assets\ Held\ for\ Sale\ (NCAHS)] / Gross\ Total\ Assets$.

5/ Excluding Interbank Loans

6/ Total weighted average number of issued and outstanding common shares (diluted) were 2,037,539,330 shares as of June 30, 2023 and 2,037,538,705 as of December 31, 2022. Net income was net of dividends on Hybrid Capital Securities.

STATEMENT OF CONDITION: 30 June 2023 vs. 31 December 2022

RCBC's **Total Assets** recorded at P1.2 trillion as of June 30, 2023.

Cash and Other Cash Items decreased by 22.9% or P4.1 billion as a result of leveling off of cash in vaults and ATMs from the usually higher cash requirements at year-end.

Due from Other Banks increased by 7.7% or P450.0 million which resulted to higher working funds with foreign correspondent banks.

Loans under Reverse Repurchase Agreement increased by 233.6% or P20.4 billion as temporary investment following the 2.5% reduction in reserves requirement effective June 30, 2023.

Total **Investment Securities**, representing 28.9% of Total Resources, decreased by 9.4% or P35.0 billion attributable to the net maturities on Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI) and Investment Securities at Amortized Cost.

Loans and Receivables – net, increased by 5.2% or 28.9 billion driven by the sustained growth in customer loans both for corporate and consumer accounts. It represented 50.1% of Total Resources.

Investment in Associates – net, increased by 26.6% or P101.0 million on account of higher income of the associates.

Bank Premises, Furniture, Fixtures & Equipment – net, decreased by 17.4% or P2.0 billion due to the sale of various real estate properties.

Deferred Tax Assets increased by 55.2% or P2.1 billion mainly due to the recognition of deferred tax asset on retirement plan and allowance for impairment losses.

Other Resources – net, increased by 32.9% or P4.5 billion largely due to recognition of net defined benefit asset; higher creditable withholding tax and the new reserve requirement on E-Money Held in Trust.

Deposit Liabilities were recorded at P899.7 billion and represented 76.6% of Total Resources. Current and Savings Account (CASA) deposits grew by P46.0 billion or 10.9% and accounted 39.8% of Total Resources. Time deposits reached P432.9 billion and accounted for 36.9% of Total Resources.

Bills Payable decreased by 23.1% or P15.4 billion primarily due to maturities of foreign and local borrowings during the period.

Bonds Payable decreased by 34.4% or P25.6 billion primarily due to maturities of the USD450.0 million Senior Notes in March.

Accrued Taxes, Interest and Other Expenses increased by 19.6% or P1.7 billion mainly due to the increase in accruals of interest on a higher level of deposits.

Other Liabilities increased by 48.4% or P15.0 billion largely due to increase in trade payables and finance lease liability.

Total **Liabilities** recorded at P1.1 trillion and represented 89.9% of Total Resources.

Total **Capital Funds** were recorded at P118.4 billion, higher by 1.7% or P2.0 billion year on year and accounted for 10.1% of Total Resources.

INCOME STATEMENT: 30 June 2023 vs. 30 June 2022

The Bank recorded a **net income** of P6.2 billion in the first half of the year driven by the following:

Total **interest income** increased by 48.0% or P10.0 billion from P20.7 billion to P30.7 billion and accounted for 130.9% of total operating income driven by the growth in volume and better yields. Interest income on loans and receivables was higher by 40.0% or P6.5 billion; interest income on investment securities increased by 50.5% or P2.1 billion and other interest income higher by 490.8% or P1.3 billion.

Total **interest expense** increased by 222.5% or P10.6 billion due to higher interest expense on deposit liabilities by 420.2% or P10.6 billion as a result of successive rate hikes and growth in average volume. Meanwhile, interest expense on bills payable and other borrowings remained flat at P2.3 billion.

As a result, **net interest income** settled at P15.4 billion from P16.0 billion and represented 65.4% of total operating income.

The Group booked total **Impairment Losses** of P3.5 billion, higher by 84.8% or P1.6 billion due to last year's recognition of impairment recovery.

Other operating income of P8.1 billion grew by 54.5% or P2.9 billion and this accounted for 34.6% of total operating income on account of the following:

- **Trading and securities gains** up by 1,566.7% or P141.0 million largely from better marked to market valuation;
- **Service fees and commissions** higher by 9.3% or P251.0 million largely from the increased in fee-based income;
- **Trust fees** increased by 5.9% or P12.0 million on account of increase in volume;
- **Foreign exchange gains** – net, higher by 233.7% or P222.0 million on account of higher foreign exchange income from commercial transactions;
- **Miscellaneous income** higher by 99.2% or P2.2 billion largely from the gain on sale of various real estate properties.

Operating expenses were recorded at P14.3 billion which inched up by 17.1% or P2.1 billion. This accounted for 61.0% of total operating income on account of the following:

- **Employee benefits** higher by 7.0% or P226.0 million driven by higher headcount;
- **Occupancy and equipment-related costs** higher by 10.4% or P152.0 million largely due to higher information technology expenses;
- **Taxes and licenses** expanded by 48.0% or P1.0 billion due to higher revenue-related gross receipts taxes and volume-driven documentary stamp taxes;
- **Depreciation and amortization** higher by 13.8% or P206.0 million;
- **Miscellaneous expenses** higher by 12.6% or P498.0 million largely due to higher credit card-related expenses and increase in regulatory fees.

Provision for Income Tax was lower by 154.1% or P1.5 billion due to the recognition of deferred income tax on retirement and impairment losses.

There were no significant elements of income or loss that did not arise from the Bank's continuing operations.

Commitments and Contingent Liabilities

See accompanying Notes to FS for the detailed discussion of Commitments and Contingent Liabilities and the summary of contingencies and commitments arising from off-balance sheet items and their equivalent peso contractual amounts (Note 12).

There are also no known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.

There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

Similarly, there were no significant elements of income or loss that did not arise from the Bank's continuing operations.
