RIZAL COMMERCIAL BANKING CORPORATION AND SUBSIDIARIES
NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2026 AND DECEMBER 31, 2025
(Amounts in Millions of Philippine Pesos, Except Otherwise Indicated)

1. CORPORATE MATTERS

1.1 Incorporation and Operations

Rizal Commercial Banking Corporation (the Parent Company, the Bank or RCBC), a universal bank engaged in all aspects of banking, was originally incorporated on September 23, 1960. The Bank has been granted with perpetual existence by the Securities and Exchange Commission (SEC) on September 30, 2022. It provides products and services related to traditional loans and deposits, trade finance, domestic and foreign fund transfers or remittance, cash management and treasury. It also enters into forward currency contracts as an accommodation to its clients and as a means of managing its foreign exchange exposures. The Parent Company and its subsidiaries (together hereinafter referred to as the Group) are engaged in all aspects of traditional banking, investment banking, retail financing (credit cards, auto loans, mortgage/housing and microfinance loans), remittance, leasing and stock brokering.

As a banking institution, the Group's operations are regulated and supervised by the Bangko Sentral ng Pilipinas (BSP). As such, the Group is required to comply with banking rules and regulations such as those relating to maintenance of reserve requirements on deposit liabilities and deposit substitutes and those relating to the adoption and use of safe and sound banking practices, among others, as promulgated by the BSP. The Group's activities are subject to the provisions of Republic Act (RA) No. 8791, the *General Banking Law of 2000*, and other related banking laws.

The Parent Company's common shares are listed in the Philippine Stock Exchange (PSE).

RCBC is a 33.92%-owned subsidiary of Pan Malayan Management and Investment Corporation (PMMIC or Ultimate Parent), a company incorporated and domiciled in the Philippines. PMMIC is the holding company of the flagship institutions of the Yuchengco Group of Companies (YGC), with registered business address at 48th Floor, Yuchengco Tower, RCBC Plaza, 6819 Ayala Avenue cor. Sen. Gil Puyat Avenue, Makati City. As of June 30, 2026, Cathay Life Insurance Corporation (Cathay) and Sumitomo Mitsui Banking Corporation (SMBC) also own 18.68% and 24.46% interest in RCBC, respectively.

The condensed consolidated interim financial statements of the Group as of and for the six months ended June 30, 2026 (including the comparatives for the six months ended June 30, 2025) and balances as of the year ended December 31, 2025 were presented to and reviewed by the Bank's Audit and Compliance Committee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized in the succeeding pages. The policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 Basis of Preparation of Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The interim financial statements of the Bank have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

There were no changes in the accounting policies and methods of computation followed in the interim financial statements as compared with the most recent annual financial statements.

(b) Presentation of Financial Statements

The financial statements are presented in accordance with Philippine Accounting Standards (PAS) 1, *Presentation of Financial Statements*. The Group presents its statement of financial position broadly in order of liquidity and presents all items of income and expenses in two statements: a “statement of profit or loss” and a “statement of comprehensive income.”

(c) Functional and Presentation Currency

These financial statements are presented in Philippine pesos, the Group’s functional and presentation currency. All amounts are in millions, except per share data or when otherwise indicated.

2.2 Basis of Consolidation and Accounting for Investments in Subsidiaries and Associates in the Separate Financial Statements

The Group’s consolidated financial statements comprise the accounts of the Parent Company and its subsidiaries, after the elimination of material intercompany transactions. All intercompany resources and liabilities, equity, income, expenses and cash flows relating to transactions with subsidiaries are eliminated in full. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

2.3 Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual terms of the financial instrument. For purposes of classifying financial assets, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria under PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

(a) Classification, Measurement and Reclassification of Financial Assets

Under PFRS 9, *Financial Instruments*, the classification and measurement of financial assets is driven by the entity’s business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The classification and measurement of financial assets are described in the succeeding paragraphs.

(i) *Financial Assets at Amortized Cost*

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows; and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method, less any impairment in value.

(ii) *Financial Assets at Fair Value Through Profit or Loss (FVPL)*

The Group classifies financial assets as FVPL when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking.

Debt instruments that do not meet the amortized cost criteria, or that meet the criteria but the Group has chosen to designate as at FVPL at initial recognition, are measured at FVPL. Equity investments are classified as financial assets at FVPL, unless the Group designates an equity investment that is not held for trading as at *Financial Assets at Fair Value Through Other Comprehensive Income* (FVOCI) at initial recognition. The Group's financial assets at FVPL include government securities, corporate bonds, equity securities, which are held for trading purposes or designated as at FVPL.

Financial assets at FVPL are initially measured at fair value and transaction costs are expensed in profit or loss. Unrealized gains and losses arising from changes (mark-to-market) in the fair value of the financial assets at FVPL category and realized gains or losses arising from disposals of these instruments are included in Trading and Securities Gains under Other Operating Income account in the statement of profit or loss.

(iii) *Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI)*

Debt Instruments at FVOCI

The Group classifies debt instruments under FVOCI when both of the following conditions are met:

- the asset is held within the Group's business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

FVOCI debt securities are initially measured at fair value plus transaction costs. They are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in Other Comprehensive Income (OCI). Interest Income and foreign exchange gains and losses are recognized in profit or loss in the same manner as for financial assets measured at amortized cost.

On derecognition, cumulative gains or losses previously recognized in OCI are reclassified to profit or loss.

Equity Instruments at FVOCI

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Group for trading.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value, including the foreign exchange component, are recognized in other comprehensive income, net of any effects arising from income taxes, and are reported as part of Revaluation Reserves account in equity. When the asset is disposed of, the cumulative gain or loss previously recognized in the Revaluation Reserves account is not reclassified to profit or loss, but is reclassified directly to Surplus account.

(b) Hedge Accounting

At the inception of the hedging relationships, the Group formally designates and documents the hedging relationship. This documentation includes the risk management objective and strategy for undertaking the hedge, the identification of the hedging instrument and the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements at inception and on an ongoing basis (including the analysis of sources of hedge ineffectiveness and how the hedge ratio for the hedging relationships is determined).

Under a fair value hedge, the subsequent change in the fair value of the hedging instrument is recognized in the statement of profit or loss. The change in the fair value of the hedged item, attributable to the risk being hedged, is recorded as part of the carrying value of the hedged item and is also recognized in the statement of profit or loss.

Under a cash flow hedge, changes in the fair value of the hedging instrument are initially recognized in other comprehensive income for the effective portion of the hedge while the ineffective portion is recognized in profit or loss. The amount recognized in other comprehensive shall be the lower of (a) cumulative gain or loss on the hedging instrument from inception of hedge, or (b) cumulative change in FV of the expected cash flows on the hedged item.

(c) Impairment of Financial Assets

The Group's ECL model follows a three-stage impairment approach, which guide in the determination of the loss allowance to be recognized in the financial statements.

- (i)* Stage 1 – comprises of all credit exposures that are considered 'performing' and with no observed significant increase in credit risk (SICR) since initial recognition. These include those financial instruments with low credit risk. For these financial instruments, the loss allowance is determined based on a 12-month ECL. PFRS 9 provides a rebuttable presumption that credit risk is considered to have significantly increased since initial recognition if the contractual payment is more than 30 days past due. The rebuttal must be in consideration of a reasonable and supportable information that is available without undue cost or effort.
- (ii)* Stage 2 – comprises of all financial instruments assessed to have SICR since initial recognition based on the Group's quantitative and qualitative criteria, though not

yet deemed to be credit-impaired. Using the Group's ICRRS, Stage 2 includes credit exposures that are considered 'under-performing' in which risk ratings were downgraded by at least three notches and/or downgraded to CCC+ to Especially Mentioned. Stage 2 financial instruments may also include those facilities where the credit risk has improved and have been reclassified from Stage 3 subject to the Group's observation period on the creditworthiness of the counterparty. A lifetime ECL is recognized for these financial instruments.

- (iii) Stage 3 – comprises credit exposures which are assessed as 'credit-impaired', thus considered by the Group as 'non-performing', which is assessed consistently with the Group's definition of default. Generally, this includes accounts classified as Substandard, Doubtful and Loss. The Group recognizes a lifetime ECL for all credit-impaired financial assets.

ECL is a function of the probability of default (PD), loss-given default (LGD), and exposure-at-default (EAD), with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgement.

The Group calculates ECL either on an individual or a collective basis. For consumer loans which were carried out on a collective basis, the financial instruments are grouped on the basis of shared credit risk characteristics, such as but not limited to instrument type, credit risk rating, collateral type, product type, historical net charge-offs, industry type, and geographical locations of the borrowers or counterparties. The Group calculates ECL for corporate loans, finance lease receivables, and investment securities at amortized cost on an individual basis.

The Group applies a simplified ECL approach for its accounts receivables and other risk assets wherein the Group uses a provision matrix that considers historical changes in the behavior of the portfolio of credit exposures based on internally collected data to predict conditions over the span of a given observation period. These receivables include claims from various counterparties, which are not originated through the Group's lending activities. For these instruments, the Group measures the loss allowance at an amount equal to lifetime ECL.

The Group recognizes an impairment loss in profit or loss for all financial instruments subjected to ECL impairment assessment with a corresponding adjustment to their carrying amount through a loss allowance account. With respect to investments in debt securities that are measured at FVOCI, the related loss allowance account is recognized in other comprehensive income and accumulated in the Revaluation Reserves account, and does not reduce the carrying amount of the financial asset in the statement of financial position.

For loan commitments, the loss allowance is recognized as provisions (presented and included as part of Other Liabilities account in the statement of financial position). Where a financial instrument includes a drawn and undrawn component, and the Group cannot identify the ECL on the loan commitment component separately from those on the drawn commitment; the Group presents a combined allowance for ECL for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as provisions.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

In 2025, the Bank refreshed its ECL segmentation and key model inputs, including PD and LGD, to incorporate the most recent available information and observed credit behavior. As part of the refresh, the Bank updated model inputs and assumptions to ensure that they appropriately reflect current portfolio characteristics, recent performance trends, and the prevailing economic environment.

2.4 *Financial Liabilities*

Financial liabilities which include deposit liabilities, bills payable, bonds payable, accrued interest and other expenses, and other liabilities (except tax-related payables, post-employment defined benefit obligation and deferred income) are recognized when the Group becomes a party to the contractual terms of the instrument.

Financial liabilities are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method, for those with maturities beyond one year, less settlement payments. All interest-related charges incurred on financial liabilities are recognized as an expense in the statement of profit or loss under the caption Interest Expense.

2.5 *Provisions and Contingencies*

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events (e.g., legal dispute or onerous contracts).

2.6 *Revenue and Expense Recognition*

Revenue is recognized to the extent that the revenue can be reliably measured; it is probable that the economic benefits will flow to the Group; and the costs incurred or to be incurred can be measured reliably.

2.7 *Impairment of Non-financial Assets*

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows [cash-generating units (CGU)]. As a result, some assets are tested for impairment either individually or at the CGU level.

Impairment loss is recognized in profit or loss for the amount by which the asset's or CGU's carrying amount exceeds its recoverable amount which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each CGU and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors are determined individually for each CGU and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

All assets, except for intangible assets with indefinite useful life and goodwill, are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or CGU's recoverable amount exceeds its carrying amount.

2.8 *Income Taxes*

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, tax authorities relating to the current or prior reporting period, that are unpaid at the end of the reporting period. They are calculated according to the tax rates and tax laws applicable to the periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statement of profit or loss.

Deferred tax is provided using the liability method, on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax assets can be utilized. Deferred tax assets are reassessed at the end of each reporting period. Previously unrecognized deferred tax assets are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

2.9 *Related Party Relationships and Transactions*

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless of whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group and close members of the family of any such individual; and, (d) the funded retirement plan of each of the entities under the Group.

2.10 *Events After the End of the Reporting Period*

Any event that provides additional information about the Group's financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post-reporting events that are not adjusting events, if any, are disclosed when material to the financial statements.

Derivative instruments used by the Group include foreign currency short-term forwards, cross-currency swaps, debt warrants and options. The Group enters into derivative contracts mainly to cover hedging of currency risk, liquidity management and funding, and arbitrage and market positioning strategies. These instruments offer opportunities for market participants to manage interest rates or currency pricing between markets thereby optimizing the Bank's funding costs and enhancing returns. Foreign currency forwards represent commitments to purchase/sell on a future date at a specific exchange rate. Foreign currency short-term swaps are simultaneous foreign currency spot and forward deals with tenor of one year.

Debt warrants attached to the bonds and other debt securities allows the Group to purchase additional debt securities from the same contracting issuer at the same price and yield as the initial purchased security. Option is a derivative financial instrument that specifies a contract between two parties for a future transaction on an asset at a reference price.

10.1 Hybrid Perpetual Securities

On August 27, 2020, the Parent Company issued US\$300 non-cumulative, unsecured, subordinated capital securities which qualify as AT1 capital under Basel III standards.

The capital securities are perpetual in respect of which there is no fixed redemption date. The Parent Company may redeem the capital securities only in certain circumstances as described in the conditions of the securities and with prior written consent of BSP. Distributions are non-cumulative and payable semi-annually in arrear at a rate of 6.5%. Certain conditions provide for circumstances under which the Parent Company will not be obliged to pay any distribution on the applicable payment date.

The proceeds of the hybrid perpetual securities are used to support and finance medium-term to long-term asset growth, loans to customers, other general corporate purposes and to maintain sufficient buffers above the minimum capital thresholds required by BSP.

The BOD, in its regular meeting held on March 31, 2025, approved the redemption of all and not less than all of the Bank's AT1 capital callable beginning August 27, 2025 pursuant to its exercise of the "Redemption at the option of the Issuer". In accordance with the BSP's approval and the terms and conditions of the AT1 capital, the hybrid perpetual securities were fully redeemed on August 27, 2025.

12. COMMITMENTS AND CONTINGENCIES

In the normal course of operations of the Group, there are various outstanding commitments and contingent liabilities such as guarantees, commitments to extend credit, tax assessments, etc., with amounts not reflected in the financial statements. Management does not anticipate losses from these transactions that will adversely affect the Group's operations.

In the opinion of management, the suits and claims arising from the normal course of operations of the Group that remain unsettled, if decided adversely, will not involve sums that would have material effect on the Group's financial position or operating results.

12.1 Contingent Accounts, Guarantees and Other Commitments

Note: In 2015, the BSP, through the monetary board, approved the liberalized rules for banks and quasi-banks on dividend declaration. The policy requires that dividend declaration be immediately recognized as a liability upon the approval of the BOD and that it be disclosed in the statement of changes in equity. Further, prior BSP approval is no longer required except for certain cases.

* June 30, 2026 ratios/amounts were annualized

1/ Average assets for the consolidated and parent ratios were computed based on the 6-month average of end of month balances of total assets. Unaudited net income for the 6-month period ended June 30, 2026 in the amount of P4.1 billion represented the consolidated and parent.

2/ Average equity for the consolidated and parent ratios were, likewise, computed based on the 6-month average of end of month balances.

3/ NPL ratio is determined by using the following formula: $(Total\ NPLs\ net\ of\ total\ specific\ provision\ for\ losses\ of\ NPLs) / (Total\ gross\ loan\ portfolio)$.

4/ NPA ratio is determined by using the following formula: $[Net\ NPLs + Gross\ Real\ and\ Other\ Properties\ Acquired\ (ROPA) + Non-performing\ Sales\ Contract\ Receivable\ (SCR) + Non-Current\ Assets\ Held\ for\ Sale\ (NCAHS)] / Gross\ Total\ Assets$.

5/ Excluding Interbank Loans.

6/ Total weighted average number of issued and outstanding common shares (diluted) were 2,419,587,139 shares as of June 30, 2026 and 2,419,587,146 as of December 31, 2025. Net income was net of dividends on Hybrid Capital Securities.

STATEMENT OF CONDITION: 30 June 2026 vs. 31 December 2025

RCBC's **Total Assets** stood at P1.4 trillion as of June 30, 2026. The significant movements are discussed below:

Cash and Other Cash Items declined by 17.9% or P4.2 billion due to usually lower cash requirements compared to year-end.

Due from Bangko Sentral ng Pilipinas decreased by 29.1% or P25.3 billion due to lower overnight deposits with the BSP as a result of redeployment of funds to higher yielding assets.

Due from Other Banks dropped by 21.1% or P1.9 billion due to decrease in foreign bank placements also due to redeployment of funds.

Loans Arising from Reverse Repurchase Agreement increased by 60.0% or P12.4 billion due to higher placements with the BSP to optimize yields.

Total Investment Securities, representing 30.4% of Total Resources, increased by 14.3% or P53.7 billion attributable to the 36.3% or P39.2 billion increase in Financial Assets at Fair Value Other Comprehensive Income (FVOCI); 17.8% or P2.3 billion increase in Financial Assets at Fair Value Through Profit or Loss (FVTPL); and P12.2 billion or 4.8% increase in Investment Securities at Amortized Cost.

Loans and Receivables – net was recorded at P820.1 billion and represented 58.2% of Total Resources.

Investment in Associates – net slightly decreased by P11.6 million.

Bank Premises, Furniture, Fixtures & Equipment – net declined by 3.1% or P252.0 million

Investment Properties – net increased by 5.4% or P41.7 million mainly attributable to net foreclosures for the period.

Deferred Tax Assets was up by 19.5% or P1.2 billion mainly due to the additional recognition of deferred tax assets during the period.

Other Resources – net increased by 6.0% or P1.3 billion due to higher prepaid expenses assets held for sale and creditable withholding taxes.

Total Liabilities settled at P1.3 trillion with an increase of P54.0 billion. The significant movements are discussed below:

Deposit Liabilities, which accounted for 75.3% of Total Resources, stood at P1.0 trillion and increased by P36.0 billion or 3.5%.

Bills Payable was lower by 7.9% or P5.5 billion due to lower local borrowings during the period.

Bonds Payable inched up by 29.9% or P18.0 billion due to the issuance of P20.5 billion peso-dominated Series G Asean Sustainability Bonds in April 2026.

Accrued Taxes, Interest and Other Expenses were down by 1.9% or P239.4 million.

Other Liabilities up by 14.9% or P5.6 billion largely due to the increase in trade and other payables during the period.

Total Capital Funds stood at P150.8 billion, which is lower by P332.4 million mainly on account of the lower valuation of FVOCI investments by P2.5 billion and the P2.0 billion cash dividends, offset by the P4.1 billion net income for the period.

INCOME STATEMENT: 30 June 2026 vs. 30 June 2025

The Bank recorded a Net Income of P4.1 billion for the six-month ended June 30, 2026, driven by the following:

Total **Interest Income** jumped by 6.4% or P2.7 billion driven by the growth in volume. Interest income on loans and receivables was higher by 7.0% or P2.4 billion and interest income on investment securities was higher by 3.2% or P243.8 million.

Total **Interest Expense** decreased by 13.2% or P2.1 billion due to lower interest expense on deposit liabilities by 20.1% or P2.6 billion caused by decline in average costs. Meanwhile, interest expense on bills payable and other borrowings increased by 15.0% or P471.0 million mainly due to higher volume.

As a result, **Net Interest Income** amounted to P31.1 billion from P26.3 billion, higher by 18.2% or P4.8 billion. It represented 91.8% of total operating income.

The Group booked **Impairment Loss Provision** of P10.9 billion, higher by 68.0% or P4.4 billion driven mainly by the annual updating of ECL components, higher loan volume and higher ECL requirements.

Other Operating Income of P2.8 billion declined by 31.3% or P1.3 billion on account of the following:

- **Trading and securities gains (losses) – net**, down by 110.1% or P313.3 million driven by lower realized trading and market valuation gains;
- **Service fees and commissions**, higher by 3.6% or P194.0 million;
- **Foreign exchange losses – net**, higher by P299.3 million or 9.6% on account of higher foreign exchange losses on derivative and commercial transactions and net of higher foreign currency position revaluation;
- **Gain (loss) on assets sold – net**, decreased by 102.8% or P655.9 million due to the lower amount of bank-owned assets sold this year;
- **Miscellaneous income**, lower by 22.4% or P187.3 million mainly due to lower recoveries from written off assets and lower equity earnings year-on-year.

Other Operating Expenses amounted to P18.2 billion, higher by 5.8% or P994.3 million on account of the following:

- **Employee benefits**, up by 7.9% or P352.2 million due to increase in headcount and annual salary adjustments;
- **Occupancy and equipment-related costs**, higher by 8.5% or P108.2 million largely due to increase in rental and security expenses;
- **Depreciation and amortization**, down by 7.7% or P135.7 million mainly due lower depreciation on office equipment and lower amortization of Right of Use Assets and various computer software.;
- **Taxes and licenses**, decreased by 6.1% or P184.2 million mainly due to lower gross receipts tax and documentary stamp tax;
- **Insurance**, up by 6.1% or P68.8 million largely from higher Philippine Deposit Insurance Corporation (PDIC) fees;
- **Miscellaneous expenses**, jumped by 14.1% or P784.9 million mainly due to higher credit card-related expenses and service fees, which are both volume-driven, and higher IT-related expenses.

Tax Expense is lower by P630.4 million or 46.3% mainly due to higher deferred income tax benefit recognized during the period.

Commitments and Contingent Liabilities

See accompanying Notes to FS for the detailed discussion of Commitments and Contingent Liabilities and the summary of contingencies and commitments arising from off-balance sheet items and their equivalent peso contractual amounts (Note 12).

There are also no known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.

There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

Similarly, there were no significant elements of income or loss that did not arise from the Bank's continuing operations.
