Notes:

1. **There should be one accomplished set of UITF On-boarding Kit per individual client.** The same kit can be used to open joint UITF accounts – each account owner should have an accomplished UITF On-boarding Kit.
2. Clients shall sign these forms on or before account opening. **For subsequent placements in the same RCBC UITF product, there is no need to sign a new set of forms.**
3. If the client decides to invest in another RCBC UITF product on a different date, the client will only be required to sign the Participating Trust Agreement for that product.

CLIENT SUITABILITY ASSESSMENT (CSA)

This Client Suitability Assessment (CSA) questionnaire shall be accomplished prior to the avilment of any financial product with RCBC. The results of the CSA shall be used as a basis to recommend various classes of financial products that may be offered based on your investment objectives, liquidity requirements, risk tolerance, and financial situation. Please indicate your answers indicated below. Please note that there is no right or wrong answer for each question. Your replies shall be scored and totaled to arrive at your risk profile.

Prior to making an investment in any of the RCBC Unit Investment Trust Funds (RCBC UITFs), RCBC is hereby informing you of the nature of the RCBC UITFs and the risks involved in investing therein. As investments in UITFs carry different degrees of risk, it is necessary that before you participate/invest in these Funds, you should have:

- (1) Fully understood the nature of the investment in RCBC UITFs and the extent of your exposure to risks;
- (2) Read this Risk Disclosure Statement completely;
- (3) Independently determined that the investment in the RCBC UITFs is appropriate for you.

There are risks involved in investing in the RCBC UITFs because the value of the units of participation in the RCBC UITF is based on the Net Asset Value per Unit (NAVPU) of the Fund which uses a marked-to-market valuation, based on the day's closing price or yield of securities, and therefore the NAVPU may fluctuate daily. The NAVPU is computed by dividing the Net Asset Value (NAV) of the Fund by the number of outstanding units. The NAV is derived from the sum of the market value of the underlying securities and assets of the Fund plus accrued interest income less liabilities, fees, taxes and qualified expenses.

INVESTMENT IN THE RCBC UITF DOES NOT PROVIDE GUARANTEED RETURNS EVEN IF INVESTED IN GOVERNMENT SECURITIES AND HIGH GRADE PRIME INVESTMENT OUTLETS. YOUR PRINCIPAL AND EARNINGS FROM INVESTMENT IN THE FUND CAN BE LOST IN WHOLE OR IN PART WHEN THE NAVPU AT THE TIME OF REDEMPTION IS LOWER THAN THE NAVPU AT THE TIME OF PARTICIPATION. GAINS FROM INVESTMENT ARE REALIZED WHEN THE NAVPU AT THE TIME OF REDEMPTION IS HIGHER THAN THE NAVPU AT THE TIME OF PARTICIPATION.

YOUR INVESTMENT IN ANY OF THE RCBC UNIT INVESTMENT TRUST FUNDS EXPOSES YOU TO THE VARIOUS RISKS ENUMERATED AND DEFINED HEREUNDER:

KEY RISKS
<p>Interest Rate Risk</p> <p>This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profits or losses because the value of a debt instrument changes with fluctuations in interest rates. The UITF portfolio, being marked-to-market, is affected by changes in interest rates thereby affecting the value of fixed income investments such as bonds. Interest rate changes may affect the prices of fixed income securities inversely, i.e. as interest rates rise, bond prices fall and when interest rates decline, bond prices rise. As the prices of bonds in the Fund adjust to a rise in interest rates, the Fund's NAVPU may decline.</p>
<p>Market/Price Risk</p> <p>This is the possibility for an investor to experience losses due to changes in market prices of securities (e.g. bonds and equities). It is the exposure to the uncertain market value of a portfolio due to price fluctuations. It is the risk of the UITF to lose value due to a decline in securities prices, which may sometimes happen rapidly or unpredictably. The value of investments fluctuates over a given time period because of general market conditions, economic changes or other events that impact large portions of the market such as political events, natural calamities, etc. As a result, the NAVPU may increase to make profit or decrease to incur loss.</p>
<p>Liquidity Risk</p> <p>This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss. These may be caused by different reasons such as trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or underdeveloped capital market. Liquidity risk occurs when certain securities in the UITF portfolio may be difficult or impossible to sell at a particular time which may prevent the redemption of investments in the UITF until its assets can be converted to cash. Even government securities which are the most liquid of fixed income securities may be subjected to liquidity risk particularly if a sizeable volume is involved.</p>
<p>Credit/Default Risk</p> <p>This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans or other forms of indebtedness which the borrower issued. This inability of the borrower to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security. It also includes risk on a counterparty (a party the Trustee trades with) defaulting on a contract to deliver its obligation either in cash or securities. This is the risk of losing value in the UITF portfolio in the event the borrower defaults on the obligation or in the case of a counter party when it fails to deliver on the agreed trade. This decline in the value of the UITF happens because the default/failure would make the price of the security go down and may make the security difficult to sell. As these happen, the UITF's NAVPU will be affected by a decline in value.</p>
<p>Reinvestment Risk</p> <p>This is the risk associated with the possibility of having lower returns or earnings when maturing assets of the fund or the interest earnings of these assets are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the Trustee is faced with the risk of not being able to find good or better alternative investment outlets as some of the securities in the Fund matures.</p> <p><i>In the case of foreign currency-denominated security or a peso-denominated Fund that is allowed to invest in securities denominated in currencies other than its based currency, the UITF is also exposed to the following risks:</i></p>
<p>Foreign Exchange Risk</p> <p>This is the possibility for an investor to experience losses due to fluctuations in foreign exchange rates. The exchange rates depend</p>

KEY RISKS

upon a variety of global and local factors, e.g. interest rates, economic performance and political developments. It is the risk of the UITF to currency fluctuations when the value of investments in securities denominated in currencies other than the base currency of the UITF depreciates. Conversely, it is the risk of the UITF to lose value when the base currency of the UITF appreciates. The NAVPU of a peso denominated UITF invested in foreign currency denominated securities may decrease to incur losses when the peso appreciates.

Country Risk

This is the possibility for an investor to experience losses arising from investments in securities issued by/in foreign countries due to the political, economic and social structures of such countries. There are risks in foreign investments due to the possible internal and external conflicts, currency devaluation, foreign ownership limitations and tax increases of the foreign country involved which are difficult to predict but must be taken into account in making such investments. Likewise brokerage commissions and other fees may be higher in foreign securities. Government supervision and regulation of foreign stock exchanges, currency markets, trading systems and brokers may be less than those in the Philippines. The procedures and rules governing foreign transactions and custody of securities may also involve delays in payment, delivery or recovery of investments.

OTHER RISKS

There are operational and systems risks incidental to the processing of the RCBC UITF transactions and are mitigated by (a) the existence of procedures and control measures in handling participations and redemptions, (b) periodic reconciliation of outstanding investments, (c) presence of a third party custodian accredited by BSP for checks and balances, (d) annual external audit of the Fund, and (e) presence of contingency procedures in case of system breakdown.

Your participation in RCBC UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by RCBC as the Trustee. These transactions may include investment in its own bank deposits, purchases of obligations of RCBC as its own trust institution or its affiliates and subsidiaries including stocks and mortgages; purchase of assets from or sales to its own trust institution, its directors, officers, subsidiaries; affiliates or other related interests/parties; or purchases or sales between trust, fiduciary and investment management accounts managed by RCBC. Risks for these types of transactions are mitigated by the strict implementation of guidelines on handling related party transactions.

TARGET FUND: SPECIFIC AND PECULIAR RISKS

Aside from the general risks associated with investing in UITFs, the Target Fund is also exposed to the following specific and peculiar risks:

TYPE OF RISK	RUEIF*
Asset Class Risk. Securities and other assets in the Underlying Index or in the Fund's portfolio may underperform in comparison to the general financial markets, a particular financial market or other asset classes.	✓
Authorized Participant Concentration Risk. Only an Authorized Participant (as defined in the Creations and Redemptions section of this prospectus (the "Prospectus")) may engage in creation or redemption transactions directly with the Fund, and none of those Authorized Participants is obligated to engage in creation and/or redemption transactions. The Fund has a limited number of institutions that may act as Authorized Participants on an agency basis (i.e., on behalf of other market participants). To the extent that Authorized Participants exit the business or are unable to proceed with creation or redemption orders with respect to the Fund and no other Authorized Participant is able to step forward to create or redeem, Fund shares may be more likely to trade at a premium or discount to NAV and possibly face trading halts or delisting.	✓
Concentration Risk. The Fund may be susceptible to an increased risk of loss, including losses due to adverse events that affect the Fund's investments more than the market as a whole, to the extent that the Fund's investments are concentrated in the securities and/or other assets of a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, sector, market segment or asset class.	✓
Cyber Security Risk. Failures or breaches of the electronic systems of the Fund, the Fund's adviser, distributor, the Index Provider and other service providers, market makers, Authorized Participants or the issuers of securities in which the Fund invests have the ability to cause disruptions, negatively impact the Fund's business operations and/or potentially result in financial losses to the Fund and its shareholders. While the Fund has established business continuity plans and risk management systems seeking to address system breaches or failures, there are inherent limitations in such plans and systems. Furthermore, the Fund cannot control the cyber security plans and systems of the Fund's Index Provider and other service providers, market makers, Authorized Participants or issuers of securities in which the Fund invests.	✓
Index-Related Risk. There is no guarantee that the Fund's investment results will have a high degree of correlation to those of the Underlying Index or that the Fund will achieve its investment objective. Market disruptions and regulatory restrictions could have an adverse effect on the Fund's ability to adjust its exposure to the required levels in order to track the Underlying Index. Errors in index data, index computations or the construction of the Underlying Index in accordance with its methodology may occur from time to time and may not be identified and corrected by the Index Provider for a period of time or at all, which may have an adverse impact on the Fund and its shareholders. Unusual market conditions may cause the Index Provider to postpone a scheduled rebalance, which could cause the Underlying Index to vary from its normal or expected composition.	✓
Infectious Illness Risk. An outbreak of an infectious respiratory illness, COVID19, caused by a novel coronavirus has resulted in travel restrictions, disruption of healthcare systems, prolonged quarantines, cancellations, supply chain disruptions, lower consumer demand, layoffs, ratings downgrades, defaults and other significant economic impacts. Certain markets have experienced temporary closures, extreme volatility, severe losses, and reduced liquidity and increased trading costs. These events will have an impact on the Fund and its investments and could impact the Fund's ability to purchase or sell securities or cause elevated tracking error and increased premiums or discounts to the Fund's NAV. Other infectious illness outbreaks in the future may result in similar impacts.	✓
Large-Capitalization Companies Risk. Large-capitalization companies may be less able than smaller capitalization companies to adapt to changing market conditions. Large-capitalization companies may be more mature and subject to more limited growth potential compared with smaller capitalization companies. During different market cycles, the performance of large-capitalization companies has trailed the overall performance of the broader securities markets.	✓
Management Risk. As the Fund will not fully replicate the Underlying Index, it is subject to the risk that BFA's investment strategy may not produce the intended results.	✓
Market Trading Risk. The Fund faces numerous market trading risks, including the potential lack of an active market for Fund shares, losses from trading in secondary markets, periods of high volatility and disruptions in the creation/redemption process. ANY OF THESE FACTORS, AMONG OTHERS, MAY LEAD TO THE FUND'S SHARES TRADING AT A PREMIUM OR DISCOUNT TO NAV.	✓
Operational Risk. The Fund is exposed to operational risks arising from a number of factors, including, but not limited to, human error, processing and communication errors, errors of the Fund's service providers, counterparties or other third parties, failed or inadequate processes and technology or systems failures. The Fund and BFA seek to reduce these operational risks through controls and procedures.	✓
Passive Investment Risk. The Fund is not actively managed, and BFA generally does not attempt to take defensive positions under any market conditions, including declining markets.	✓
Risk of Investing in the U.S. Certain changes in the U.S. economy, such as when the U.S. economy weakens or when its financial markets decline, may have an adverse effect on the securities to which the Fund has exposure.	✓
Securities Lending Risk. The Fund may engage in securities lending which involves the risk that the Fund may lose money because the borrower of the loaned securities fails to return the securities in a timely manner or at all. The Fund could also lose money in the event of a decline in the value of collateral provided for loaned securities or a decline in the value of any investments made with cash collateral. These events could also trigger adverse tax consequences for the Fund.	✓
Tracking Error Risk. The Fund may be subject to tracking error, which is the divergence of the Fund's performance from that of the Underlying Index. Tracking error may occur because of differences between the securities and other instruments held in the Fund's portfolio and those included in the Underlying Index, pricing differences (including, as applicable, differences between a security's price at the local market close and the Fund's valuation of a security at the time of calculation of the Fund's NAV), transaction costs incurred by the Fund, the Fund's holding of uninvested cash, differences in timing of the accrual of or the valuation of dividends or interest, the requirements to maintain pass-through tax treatment, portfolio transactions carried out to minimize the distribution of capital gains to shareholders, acceptance of custom baskets, changes to the Underlying Index or the costs to the Fund of complying with various new or existing regulatory requirements.	✓

CLIENT ACKNOWLEDGEMENT

On Client Suitability Assessment

I certify that I have completely and accurately accomplished the Client Suitability Assessment (CSA) Form and that an RCBC representative has fully explained the purpose of the CSA and its corresponding results. I likewise understand that if RCBC is unable to obtain sufficient information, it shall refrain from offering any financial product.

I agree with the result of the CSA indicated above and the recommended investment outlets/derivative product suitable to meet my needs. I have made an informed decision to execute a derivative transaction or to open a regular trust/fiduciary/investment management account with RCBC after having read and/or understood the general features and terms and conditions of such product or service as explained in the product presentation. I understand that this type of investment/transaction does not guarantee against losses.

I agree to update my client information and investment/risk profile 1) prior to transacting a new kind or type of product; 2) in case of material changes in my financial situation or goal; 3) or periodically, in line with RCBC's policies and procedures, and applicable BSP regulations.

On Risk Disclosure Statement

By affixing my signature/s below, I hereby confirm that I have completely read and fully understood the Risk Disclosure Statement and the same was clearly explained to me by the Certified UITF Sales Person of RCBC whose signature appears below, before I affixed my signature/s herein. I am fully aware of the possible impact of these risks to our investment. After having independently assessed these risks, I have determined that the investment in RCBC UITFs is appropriate for my investment needs and goals. I hereby voluntarily and willingly agree to comply with any and all laws, regulations, the plan rules, terms and conditions governing my investment in the RCBC UITFs.

On Specific and Peculiar Risks of Target Fund of Equity Feeder Fund

By affixing my signature/s below, I hereby represent that I have completely read and fully understood the specific and peculiar risks of target funds (for feeder-type UITFs) indicated, and the same was clearly explained to me by the Certified UITF Sales Person of RCBC whose signature appears below.

On Consumer Protection

I understand that I may invoke the cooling-off period as prescribed under the BSP Circular on the Consumer Protection, which provides clients the right to cancel the Participating Trust Agreement within 2 banking days from account opening date and to redeem the UITF investment at the prevailing NAVPU, without any early redemption charge. The cooling off period gives me the opportunity to reconsider my investment decisions.

I understand that RCBC is regulated by the Bangko Sentral ng Pilipinas. I was made aware that we may call 8877-7222 or email customercare@rcbc.com for more information, inquiries or complaints and that I may also file my complaints with the BSP Financial Consumer Department at 8708-7087 or consumeraffairs@bsp.gov.ph or via BSP Webchat (<http://www.bsp.gov.ph/>) or BSP Facebook (<https://www.facebook.com/BangkoSentralngPilipinas/>). I understand that Investment products are not deposit accounts and are not insured by the Philippine Deposit Insurance Corporation (PDIC).

I have also been advised that I may log on to www.rcbc.com for the historical performance and NAVPU of the RCBC UITFs.

The cooling off period gives me the opportunity to reconsider my investment decisions.

I understand that RCBC is regulated by the Bangko Sentral ng Pilipinas. I was made aware that we may call 8877-7222 or email customercare@rcbc.com for more information, inquiries or complaints and that I may also file my complaints with the BSP Financial Consumer Department at 8708-7087 or consumeraffairs@bsp.gov.ph or via BSP Webchat (<http://www.bsp.gov.ph/>) or BSP Facebook (<https://www.facebook.com/BangkoSentralngPilipinas/>). I understand that Investment products are not deposit accounts and are not insured by the Philippine Deposit Insurance Corporation (PDIC).

I have also been advised that I may log on to www.rcbc.com for the historical performance and NAVPU of the RCBC UITFs.

CLIENT WAIVER

IMPORTANT: Clients should only sign this if they are not in agreement with the results of the CSA and would want to invest in a Trust product with a higher risk profile.

Despite the advice given to me by the RCBC Authorized Sales Person that there may be some disparity between my investment preferences and risk appetite based on the foregoing Client Suitability Assessment (CSA) and the nature of investments in general or the specific investments I have selected in particular, I hereby confirm that:

1. I do not agree with or accept the recommendation of the Sales Person on all or several investments suitable to meet my needs.
2. I choose to invest in the assets which I believe suits my needs, investment objectives and risk appetite.
3. The results of the CSA can be disregarded and that I would like to proceed with my intended investment/s with RCBC Trust. I hereby hold RCBC Trust free and harmless from any claims or liabilities that may arise from the implementation of this waiver, except if such claim or liability directly arose from the RCBC Trust's sole fault or gross inexcusable negligence.
